LAUZEN Payroll +

Workforce Management Solutions

SIMPLIFY YOUR PAYROLL + HR

We provide a refreshingly simple way to handle payroll. Our unmatched personal service and industry-leading technology make it easier to pay and manage employees – from hire to retire.

INDUSTRY LEADING TECHNOLOGY

Lauzen Payroll operates a user-friendly, cloud-based system, *Employer on the GO*. This powerful software platform allows employers to combine payroll and other workforce management functions into a single source. The result is a more streamlined and automated payroll process for employers.

Whether your business has one employee or more than 200, *Employer on the GO* transforms the way employers use technology to make it easier to pay and manage employees.

UNMATCHED PERSONAL SERVICE

The big payroll companies treat you like a number. They operate out-of-state processing offices and call centers to serve clients. Our approach is different. By listening and learning about your unique business, we can tailor our services and system specifically to your needs. Then, we provide great personal service and support. Our experienced staff will know you by name and we want to be an important part of your team.

LAUZEN PAYROLL PEOPLE

We live and breathe payroll, HR and benefits. Our team is made up of dedicated, professional people committed to making it easier to pay and manage employees. Our leadership team has nearly 50 years combined experience working with employers, and we have fun doing it!

We live and work in the Chicago suburbs and our clients are friends and neighbors in our community.

We would love to get to know you and your business.

EMPLOYER ON THE GO

Payroll has evolved. Lauzen Payroll provides access to cloud-based technology allowing busy employers and employees to have real-time 24/7 access to their payroll process and data. *Employer on the GO* gives you the control you need.   Simply add your payroll data and we do the rest. Lauzen Payroll is here to support you wherever you need it most – payroll calculations, tax filings and technology.

Employer on the GO works well on any device – Windows PC, Mac, iOS or Android – and can grow with your business with advanced features like Employee Portals, GPS-enabled time/attendance, and paperless onboarding.

Employer on the GO enables employers to streamline functions for paying, managing and communicating with employees.
